

SKAL Club of Saskatoon #321
SKAL/ACTA Golf Tournament at
the Legends Golf and Country Club
Warman, SK
June 29, 2011

Attendance was at an all time high with nearly 100 participants. The weather was sunny and warm.

The putting contest was a hit or miss affair. Those that were good were very very good with a number of hole in ones recorded. Those that were bad were—horrid.

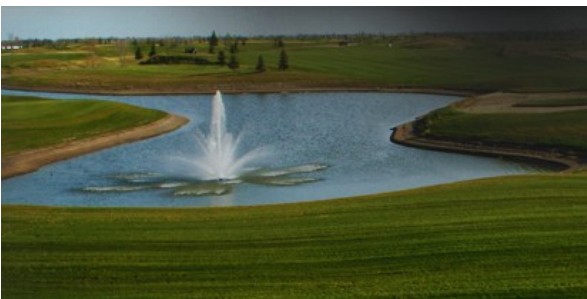

The burger lunch was served on the deck which gave a great vantage point view the course. This was the first year for the new course and it was as impressive close up as it was from the deck.

On the course few complained about the strong breeze as it was a convenient excuse for all the errant shots.

There must have been quite a few as it was not long before we were playing at a slow pace.

Shelly and Sharon did a good job of putting the strong arm the suppliers as was evident from the mountain of prizes collected and distributed.

The wine raffle was a huge hit again with 44 bottles going to Ed from Uniglobe Carefree Travel.

The SKAL toast was not forgotten and along with great steaks and all the fixin's a good time was had by all.
